Paperback. Book Condition: New. Paperback. 288 pages. This book proposal explores the mysteries of existence. Its origins. Its sustaining source , and or, sources. Its magnitude and dimensions. Its purposes and behavior and also sheds light on how this mystery relates to and interacts with each of its component parts and whether it is finite or eternal in composition. This is not an intellectual pursuit but one merely of inquisitive speculation, observation and spiritual investigation to postulate the age old question Why are we here My proposed title Divine Consciousnesses: The Mysteries of Eternity would, I hope, encourage people who are going through trials, and even those who are not, to look beyond their current situations and place their focus upon the much broader picture of existence. This is not a How-to book and one that does not profess to have the answers to lifes riddles but deals with questions that are age old to the human terrestrial experience such as Is this all to life and Is there really a deific being and what purpose does it have for me This book is an insightful look into these questions with the intent of stimulating the readers quest for a better understanding of existence and the part that they play individually within it. This item ships from multiple locations. Your book may arrive from Roseburg,OR, La Vergne,TN. Paperback.
