MATHEMATICAL MODELING APPROACHES FOR OPTIMIZATION OF CHEMICAL PROCESSES

Nova Science Publishers Inc. Paperback. Book Condition: new. BRAND NEW, Mathematical Modeling Approaches for Optimization of Chemical Processes, Gabriela Corsano, Oscar A. Iribarren, Pio A. Aguirre, Mathematical modelling is a powerful tool for solving optimisation problems in chemical engineering. In this work several models are proposed aimed at helping to make decisions about different aspects of the processes lifecycle, from the synthesis and design steps up to the operation and scheduling. Using an example of the Sugar Cane industry, several...

Reviews

This ebook is great. It is definitely basic but shocks from the 50 percent of your publication. Its been printed in an exceedingly basic way and it is only right after i finished reading this book where basically changed me, modify the way in my opinion.

-- **Mckayla Ritchie**

This is the finest book i have got study right up until now. I am quite late in start reading this one, but better then never. Once you begin to read the book, it is extremely difficult to leave it before concluding.

-- **Keanu Johns**
